

# CSL ROUTER

Secure, Reliable 4G Backup for Telecare Schemes

## FEATURES

- Compatible with all digital protocols.
- 4G Cellular backup if the Scheme's primary path is unavailable.
- Option to link to Scheme's battery backup to ensure resilient, continuous connectivity in a power outage.
- Option to configure to support other Scheme devices (Warden Calling, Security Alarms, CCTV, Fire, Lifts etc).
- Uses CSL's Roaming WorldSIM to connect to all networks without bias.
- Offers a private VPN connection, safeguarding not only the backup 4G connection but also the existing broadband connection. This offers enhanced security via full encrypted end-to-end connection.

**SPECIFICATION**

Dimensions	120 (w) x 120 (d) x 45mm (h)
Radio Technology	4G/3G/Wi-Fi*
Radio Frequency	3G (900/2100Mhz) & 4G (800/900/1800/2100/2300/2600Mhz)
Aerial Connections	1 LTE SMA male (included)
Wi-Fi	2.4Ghz/802.11bgn*
Ethernet Speed	10/100Mbps
Warranty	12 months
Approvals	EN60950 / ENS55022 / EN55024 / EN300328V1.9.1
Operating Temperature	-40°C to 70°C
Power	12v DC 0.5A
Power Cable	12v DC plug top with interchangeable heads (included)

\*must purchase Wi-Fi Aerial Pack separately (CM02011).

**AVAILABLE VARIANT**
**Back-up 4G Roaming SIM**

Paths	SIMs	Roaming	Ethernet Ports
LAN/4G	1	Yes	1
