

MiniAir 2 & My Home Alarm App

Take control of your alarm system with the ideal mobile upgrade for digital communicators

ARC monitoring with the option to qualify for a police response

My Home Alarm App offering push notifications

Removes call charges as it signals via 4G/LTE-M & not a telephone line

Enhanced resilience with Dual SIM technology

MiniAir 2 & My Home Alarm App

For those who want instant, remote access & control of their alarm systems

- The My Home Alarm App - available exclusively with MiniAir 2.
 - MiniAir 2 uses CSL's patented roaming SIM algorithm, ensuring the best possible mobile connection for your alarm system.
 - Push notifications are sent when an alarm is triggered and all alarm events are logged on the App for you to view later.
- MiniAir's connection is managed by CSL's Gemini Global Platform. It
- ensures the highest levels of reliability and security for the signals being sent from your alarm system.
