Backup SIM

All Radio variants have a backup network diverse 4G WorldSIM to help safeguard your system if the active SIM fails

All IP (Copper Switch-Off) Ready

The ideal and professional upgrade for any systems currently reliant on a PSTN line

Discover GradeShift Pro 2 & DigiAir Pro 2

Utilise unrivalled management tools for your professional alarm signalling base

- Variants include GradeShift Pro 2 (dual-path)
 - Radio + Radio or LAN + Radio & DigiAir Pro 2 (single-path) Radio or LAN.
- All Radio variants use our patented 4G Roaming WorldSIMs, each operating on a separate network from any other SIM, on the same device.
- All Radio variants have an additional 4G backup SIM, to take over if one or both of the signalling paths fail.
- 12 channels are available as standard.
- Dial Capture on-board as standard (including UDL).
- Ethernet Socket on-board as standard for LAN connection – no adaptor needed.
- Compatible with our ordering portal, CSL Live, as well as our handy Installer App, My Base. Take control of your signalling devices with My Base. Download it today from your relevant App store!
