

## Orisec are CSL Connected

A Perfect Combination of Professional Monitoring & End User Apps

Combine CSL's Critical Connectivity with your chosen Orisec alarm panel and the added option of the ControlPlus end-user App. Offering you professionally monitored signalling designed to discourage self-monitored systems that bypass Alarm Receiving Centres.

### Key Features

- Simple Integration
- Reliable ARC Monitoring (Single Path Only)
  - Exclusive Dual & Triple Path Options
  - Available across complete Orisec Panel Range\*
- GSM, IP & Wi-Fi Modules also support Orisec Apps & UDL
  - Benefit from Recurring Monitoring Fees

\*Excluding CP-10, CK-10, CT-10

## ControlPlus End User App

The ControlPlus App gives users complete visibility of their system, including camera streaming, allowing total operational control, system event notifications and monitoring from anywhere, at any time.

The app can be customised with your company details:

- Your Logo
- Custom Text
- Website URL
- Phone Number
- LCD Screen Message
